## SUMMARY

A skilled web developer specializing in React for dynamic UIs and Node.js for efficient back-end solutions, ensuring seamless database integration and enhanced user experiences.

## PROFESSIONAL EXPERIENCE

### THE EASYLEARN ACADEMY

As a trainee /Student (Jan,2024 - july, 2024)

I completed a training program at The Easy Learn Academy, where I gained comprehensive knowledge in web development technologies, including HTML, CSS, JavaScript, Bootstrap, React, and Node.js. I learned to effectively implement front-end designs using Bootstrap and React, while also gaining experience in server-side development with Node.js and MySQL.

### Webyug infonet (July,2024-present)

As a trainee

Currently gaining hands-on experience in web development, contributing to projects by implementing responsive designs and optimizing website performance. Collaborating with team members to enhance user experience and troubleshoot issues

## PROJECTS

### • Looplink (August 2024 - October 2024)

This is a User Profile Management System where users can sign up, log in, and update their profile details, stored in a MySQL database. The application is built with a React frontend and a Node.js/Express backend.

### • Doctor appointment system ( March 2024 - April 2024 )

Web application using html,css,bootstrap,reactjs and calling API to streamline doctor appointment scheduling .Ensured a responsive and user-friendly experience

### • lecture management system (jun 2024 - july 2024)
